Innovative Solutions for Protein Biomarker Discovery and Validation

Applied Biosystems/MDS SCIEX warmly invites you to attend our lunchtime symposium coinciding with the HUPO 4th Annual World Congress in Munich. We will present our Mass Spectrometry based solutions for protein biomarker discovery and validation. We will also be introducing the new 4800 MALDI TOF/TOF™ Analyzer, which provides the most direct path to definitive protein identification and quantitation. We look forward to seeing you there.

Date Thursday 1 September 2005
Time 12.15 - 13.30 hrs
Room TBD

Agenda

12.15 - 13.30 hrs	Lunch
12.15 - 12.40 hrs	Introducing the 4800 MALDI TOF/TOF™ Analyzer - the Most Direct Path to Definitive Protein Identification and Quantitation
12.50 - 13.20 hrs	New Developments in LC/MS for Protein Biomarker Discovery and Validation
13.20 - 13.30 hrs	Summary & Conclusions
